Dear Shareholders,

On behalf of the entire team, we want to express our appreciation for the confidence you have placed in The SPAC and New Issue ETF ("SPCX" or the "Fund"). The following information pertains to the fiscal year of October 1, 2021, through September 30, 2022. SPCX is the first actively managed ETF that focuses on Special Purpose Acquisition Companies (SPACs).

The Fund returned -7.47% for the fiscal year ended on September 30, 2022. The market price for SPCX returned -7.74% while the IndexIQ Merger Arbitrage Index, a portfolio of global companies for which there has been a public announcement of a takeover by an acquirer, returned -4.86% over the same period.

The past year has been a challenging environment for equities and SPACs have not been spared from the broader stock market weakness. In addition to the overall bearish tone for stocks, equity issuance and capital markets activity has slowed to a trickle. According to Cowen Inc., year-to-date 2022 there have been 78 SPAC IPOs raising \$12.7 billion, a substantial decline from the record issuance of 613 SPACs raising \$162 billion in calendar year 2021. Traditional IPO activity has also dropped markedly with 64 IPOs raising just \$6.5 billion year-to-date 2022 compared to 397 IPOs raising \$142 billion in calendar year 2021. Although there are currently 110 SPACs representing \$16.5 billion in capital that have filed to go public, according to Cowen, we believe that the current investment backdrop will keep much of that pending activity on the sidelines until market conditions improve. As such, we expect continued volatility in the SPAC market for the foreseeable future. However, we believe SPCX's actively-managed approach allows for not only a more defensive posture in the near-term but gives us optionality to quickly capitalize on opportunities should market conditions warrant.

We appreciate your investment in SPCX.

Sincerely,

Matthew Tuttle
Chief Executive Officer
Tuttle Capital Management LLC

This material represents the Advisor's assessment of the Fund and market environment as of September 30, 2022 and should not be relied upon by the reader as research, tax or investment advice, is subject to change at any time based upon economic, market, or other conditions and the Advisor undertakes no obligation to update the views expressed herein. Any discussions of specific securities should not be considered a recommendation to buy or sell those securities. The views expressed above (including any forward-looking statement) may not be relied upon as investment advice or as an indication of the Fund's trading intent. Information about the Fund's holdings, asset allocation or country diversification is historical and is not an indication of future Fund composition, which may vary.

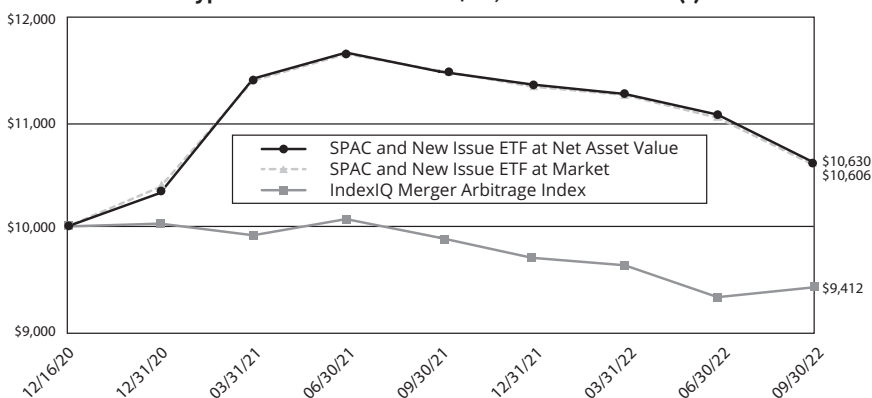

Past performance is no guarantee of future results. Investment return and principal value will vary. Investors' shares when redeemed may be worth more or less than original cost. Returns do not reflect the deduction of taxes a shareholder would pay on distributions or redemption of Fund's shares. The Fund's prospectus contains more complete information, including fees, expenses and risks involved in investing in newly public companies and should be read carefully before investing.

INVESTMENT OBJECTIVE

The SPAC and New Issue ETF seeks to provide total return.

**FUND PERFORMANCE
(AS OF SEPTEMBER 30, 2022)**

	Average Annual Total Returns		Expense Ratio ^(a)
	1 Year	Inception (12/16/20)	Total
The SPAC and New Issue ETF (SPCX) - Total Return (at Net Asset Value) ^(b)	-7.47%	3.47%	1.13%
The SPAC and New Issue ETF (SPCX) - Total Return (at Market Value) ^(c)	-7.74%	3.34%	N/A
IndexIQ Merger Arbitrage ^(d)	-4.86%	-3.33%	N/A

Hypothetical Growth of a \$10,000 Investment (*)

Past performance does not guarantee future results. Return calculations assume the reinvestment of distributions and do not reflect taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. The performance data quoted represent past performance and current returns may be lower or higher. The investment return and principal value will fluctuate so that an investor's shares, when redeemed may be worth more or less than the original cost. The performance above reflects any fee reductions during the applicable periods. If such fee reductions had not occurred, the quoted performance would be lower. To obtain performance information current to the most recent month-end, please call 1-866-904-0406 or visit <http://www.spcxetf.com>.

* The chart represents historical performance of a hypothetical investment of \$10,000 in The SPAC and New Issue ETF and represents the reinvestment of dividends and capital gains in the Fund.

^(a) The total expense ratio reflects the gross expense ratio as reported in the Fund's Prospectus dated February 1, 2022. Please see the Fund's most recent prospectus for details. Additional information pertaining to the Fund's expense ratio as of September 30, 2022 can be found in the Financial Highlights.

^(b) Net asset value total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period, if any, and redemption on the last day of the period at net asset value. This percentage is not an indication of the performance of a shareholder's investment in the Fund based on market value due to differences between the market price of the shares and the net asset value per share of the Fund.

^(c) Market value total return is calculated assuming an initial investment made at the market value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period, if any, and redemption on the last day of the period at market value. Market value is determined by the composite closing price. Composite closing security price is defined as the last reported sale price from any primary listing market (e.g., Nasdaq) or participating regional exchanges or markets. The composite closing price is the last reported sale price from any of the eligible sources, regardless of volume and not an average price and may have occurred on a date prior to the close of the reporting period. Market value may be greater or less than net asset value, depending on the Fund's closing price on the listing market.

^(d) The IQ Merger Arbitrage Index seeks to achieve capital appreciation by investing in global companies for which there has been a public announcement of a takeover by an acquirer. This differentiated approach is based on a passive strategy of owning certain announced takeover targets with the goal of generating returns that are representative of global merger arbitrage activity. The Index also includes short exposure to global equities as a partial equity market hedge. Index returns, unlike the Fund's returns, do not reflect any fees or expenses. Investors cannot invest directly in an index.

As a Fund shareholder, you may incur two types of costs: (1) transaction costs, including commissions on trading, as applicable; and (2) ongoing costs, including advisory fees and other Fund expenses. These examples are intended to help you understand your ongoing costs (in dollars) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The expense examples below are based on an investment of \$1,000 invested at the beginning of the period and held for the six-month period ended September 30, 2022.

Actual Expenses

The table below provides information about actual account values and actual expenses. You may use this information, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the table under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees, or exchange fees. Further, the expenses do not include any brokerage commissions on investors' purchases or redemptions of Fund shares as described in the Fund's prospectus. Therefore, the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

		Beginning Account Value 4/1/2022	Ending Account Value 9/30/2022	Expenses Paid During Period^(a)	Annualized Expense Ratio
The SPAC and	Actual	\$1,000.00	\$ 943.00	\$ 4.63	0.95%
New Issue ETF	Hypothetical	1,000.00	1,020.31	4.81	0.95

(a) Expenses are equal to the Fund's annualized expense ratio multiplied by the average account value over the period, multiplied by 183/365 (the number of days in the most recent fiscal half year divided by the number of days in the fiscal year).

Portfolio of Investments Summary Table	Percentage of Total Investments (%)
Financials	84.3

Total Investments — 89.1% (Cost \$26,554,891)	26,892,575
Other Assets in Excess of Liabilities — 10.9%	3,283,039
Net Assets — 100.0%	30,175,614

† Represents less than 0.05%.

(a) Non-income producing security.

(b) Security was valued using unobservable inputs in good faith pursuant to procedures approved by the Board of Trustees as of September 30, 2022. The total of all such securities represents 12.84% of the net assets of the Fund.

(c) Security which is restricted to resale. The Fund's Advisor has deemed this security to be illiquid based upon procedures approved by the Board of Trustees. The aggregate value of these securities at September 30, 2022 was \$3,874,576 which represented 12.84% of the total investments of the Fund.

(d) This position represents a private placement investment in a SPAC sponsor. The return on this investment is subject to a waterfall upon the consummation of a deal and may be paid in cash and/or SPAC shares and/or warrants.

(e) Each unit represents one share and ½ warrant.

(f) Warrant expires five years after initial business combination.

The illiquid restricted securities held as of September 30, 2022 are identified below.

Security	Acquisition Date ^(g)	Acquisition Cost (\$)	Shares or Units	Fair Value (\$)	Percentage of Net Assets (%)

Financial Highlights

	Year Ended September 30, 2022	December 15, 2020 ^(e) through September 30, 2021
The SPAC and New Issue ETF		
Net Asset Value, Beginning of Period	\$28.72	\$25.00
Net Investment Income (Loss) ^(b)	(0.25)	(0.26)
Net Realized and Unrealized Gains (Losses) on Investments ^(c)	(1.89)	3.98
Total from Investment Activities	(2.14)	3.72
Distributions from Net Investment Income	(0.36)	—
Distributions from Net Realized Gains on Investments	—	—
Total Distributions	(0.36)	—
Impact of NAV error	0.02	—
Net Asset Value, End of Period	\$26.24	\$28.72
Net Assets at End of Period (000's)	\$30,176	\$85,444
Total Return at NAV ^{(d)(e)}	(7.47)%	14.88%
Total Return at Market ^{(e)(f)}	(7.74)%	14.96%
Ratio of Net Expenses to Average Net Assets ^(g)	0.95%	0.95%
Ratio of Gross Expenses to Average Net Assets ^{(g)(h)}	1.31%	1.13%
Ratio of Net Investment Income (Loss) to Average Net Assets ^(g)	(0.88)%	(0.90)%
Portfolio Turnover ^{(e)(i)}	51%	124%

(a) Commencement of operations.

(b) Calculated based on average shares method.

(c) Realized and unrealized gains per share are balancing amounts necessary to reconcile the change in net asset value per share for the period, and may not accord with the aggregate gains and losses in the Statement of Operations due to share transactions for the period.

(d) Net asset value total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period, if any, and redemption on the last day of the period at market value. This percentage is not an indication of the performance of a shareholder's investment in the Fund based on market value due to differences between the market price of the shares and the net asset value per share of the Fund.

(e) Not annualized for periods less than one year.

(f) Market value total return is calculated assuming an initial investment made at the market value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period, if any, and redemption on the last day of the period at market value. Market value is determined by the composite closing price. Composite closing security price is defined as the last reported sale price from any primary listing market (e.g., Nasdaq) or participating regional exchanges or markets. The composite closing price is the last reported sale price from any of the eligible sources, regardless of volume and not an average price and may have occurred on a date prior to the close of the reporting period. Market value may be greater or less than net asset value, depending on the Fund's closing price on the listing market.

(g) Annualized for periods less than one year.

(h) If applicable, certain fees were waived and/or reimbursed. If such waivers/reimbursements had not occurred, the ratio would have been as indicated.

(i) Excludes the impact of in-kind transactions.

See notes which are an integral part of the Financial Statements.

(1) Organization

Collaborative Investment Series Trust (the "Trust") was organized on July 26, 2017 as a Delaware statutory trust. The Trust is registered under the Investment Company Act of 1940 (the "1940 Act") as an open-end management investment company and thus is determined to be an investment company for accounting purposes. The Trust is comprised of several funds and is authorized to issue an unlimited number of shares of beneficial interest ("Shares") in one or more series representing interests in separate portfolios of securities. The accompanying financial statements are those of The SPAC and New Issue ETF (the "Fund"). The Fund is a diversified and actively managed exchange-traded fund. The Fund's prospectus provides a description of the Fund's investment objectives, policies, and strategies. The assets of the Fund are segregated and a shareholder's interest is limited to the Fund in which shares are held.

Under the Trust's organizational documents, its officers and Board of Trustees (the "Board") are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business, the Trust may enter into contracts with vendors and others that provide for general indemnifications. The Trust's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Trust. However, based on experience, the Trust expects that risk of loss to be remote.

(2) Significant Accounting Policies

Shares of the Fund are listed and traded on the Nasdaq Stock Exchange ("Nasdaq"). Market prices for the Shares may be different from their net asset value ("NAV"). The Fund issues and redeems Shares on a continuous basis at NAV only in large blocks of Shares, currently 25,000 Shares, called Creation Units ("Creation Units"). Creation Units are issued and redeemed principally in-kind for securities included in a specified universe. Once created, Shares generally trade in the secondary market at market prices that change throughout the day in amounts less than a Creation Unit. Shares of the Fund may only be purchased or redeemed by certain financial institutions ("Authorized Participants"). An Authorized Participant is either (i) a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the National Securities Clearing Corporation or (ii) a DTC participant and, in each case, must have executed a Participant Agreement with ACA Foreside (the "Distributor"). Most retail investors do not qualify as Authorized Participants nor have the resources to buy and sell whole Creation Units. Therefore, they are unable to purchase or redeem the Shares directly from the Fund.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America ("GAAP"). The Fund is an investment company and accordingly follows the investment company accounting and reporting

guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946 “Financial Services – Investment Companies”. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the period. Actual results could differ from those estimates.

Payment from affiliate - The Fund was reimbursed \$37,627 from the Administrator as a result of a trading error which is included in capital transactions on the Fund’s Statement of Changes in Net Assets.

A. Investment Valuations

The Fund holds investments at fair value. Fair value is defined as the price that would be expected to be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The valuation techniques used to determine fair value are further described below.

Security values are ordinarily obtained through the use of independent pricing services in accordance with procedures adopted by the Board. Pursuant to these procedures, the Fund may use a pricing service, bank, or broker-dealer experienced in such matters to value the Fund’s securities. When reliable market quotations are not readily available for any security, the fair value of that security will be determined by a committee established by the Board in accordance with procedures adopted by the Board. The fair valuation process is designed to value the subject security at the price the Fund would reasonably expect to receive upon its current sale. Additional consideration is given to securities that have experienced a decrease in the volume or level of activity or to circumstances that indicate that a transaction is not orderly.

The Trust has a three-tier fair value hierarchy that is dependent upon the various “inputs” used to determine the value of the Fund’s investments. The valuation techniques described below maximize the use of observable inputs and minimize the use of unobservable inputs in determining fair value. These inputs are summarized in the three broad levels listed below:

- Level 1 - Quoted prices in active markets for identical assets that the Fund has the ability to access.
- Level 2 - Other observable pricing inputs at the measurement date (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).
- Level 3 - Significant unobservable pricing inputs at the measurement date (including the Fund’s own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing investments are not necessarily an indication of the risk associated with investing in those investments.

Common stocks, closed-end funds, and exchange-traded funds (“ETFs”) traded on a recognized securities exchange are valued at that day’s last traded price or official closing price, as applicable, on the exchange where the fund is primarily traded. Funds traded on a recognized exchange for which there were no sales on that day may be valued at the last traded price. In each of these situations, valuations are typically categorized as Level 1 in the fair value hierarchy.

The following table provides the fair value measurement as of September 30, 2022, while the breakdown, by category, of investments is disclosed in the Portfolio of Investments for the Fund:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total Investments</u>
The SPAC and New Issue ETF				
Common Stocks ⁽¹⁾	\$22,849,095	\$—	\$—	\$22,849,095
Private Investments	—	—	3,818,050	3,818,050
Rights	9,879	—	—	9,879
Warrants	159,025	—	56,526	215,551
Total Investments	<u>\$23,017,999</u>	<u>\$—</u>	<u>\$3,874,576</u>	<u>\$26,892,575</u>

(1) Please see the Portfolio of Investments for industry classifications.

The following table is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value.

	The SPAC and New Issue ETF
Balance as of September 30, 2021	<u>\$6,663,125</u>
Purchases During the Year	—
Change in Unrealized Appreciation (Depreciation)	(787,444)
Sales During the Year	(181,943)
Realized Gains (Losses)	(1,819,162)
Transfers In (Out) of Level 3	—
Balance as of September 30, 2022	<u>\$3,874,576</u>

The total change in unrealized appreciation (depreciation) attributable to Level 3 investments held at year end is \$(1,401,446) for the year ended September 30, 2022.

The Fund recognizes transfers between fair value hierarchy levels at the reporting period end. There were no transfers between Levels in the Fund as of September 30, 2022.

The following is a summary of quantitative information about significant unobservable valuation inputs approved by the Fair Value Committee in accordance with procedures adopted by the Board for Level 3 Fair Value Measurements for investments held at September 30, 2022.

Asset Class	Fair Value at September 30, 2022	Valuation Technique	Unobservable Input(s) ^(a)	Value Range	Weighted Average
SPAC Founder Shares, Private Placement Units, Private Investments and Warrants	\$3,874,576	Discount to Public Share Price	Discount for lack of marketability	30% - 77% of Public Share Price	33% of Public Share Price

(a) A change to the unobservable input may result in a significant change to the value of the investment as follows:

Unobservable Input	Impact to Value if Input Increases	Impact to Value if Input Decreases
Discount for lack of marketability	Decrease	Increase

B. Security Transactions and Related Income

Investment transactions are accounted for no later than the first calculation of the NAV on the business day following the trade date. For financial reporting purposes, however, security transactions are accounted for on the trade date on the last business day of the reporting period. Securities gains and losses are calculated on the identified cost basis. Interest income and expenses are accrued daily. Dividends and dividend expense, less foreign tax withholding, if any, are recorded on the ex-dividend date. Investment income from non-U.S. sources received by the Fund is generally subject to non-U.S. withholding taxes at rates ranging up to 30%. Such withholding taxes may be reduced or eliminated under the terms of applicable U.S. income tax treaties. The Fund may be subject to foreign taxes on gains in investments or currency repatriation. The Fund accrues such taxes, as applicable, based on its current interpretation of tax rules in the foreign markets in which it invests.

C. Cash

Idle cash may be swept into various interest-bearing overnight demand deposits and is classified as cash on the Statement of Assets and Liabilities. The Fund maintains cash in bank deposit accounts which, at times, may exceed the United States federally insured limit of \$250,000. Amounts swept overnight are available on the next business day.

D. Dividends and Distributions to Shareholders

Distributions are recorded on the ex-dividend date. The Fund intends to distribute to its shareholders net investment income and net realized capital gains, if any, at least annually. The amount of dividends from net investment income and net realized gains is determined in accordance with federal income tax regulations, which may differ from GAAP. These "book/tax" differences are

considered either temporary or permanent in nature. To the extent these differences are permanent in nature (e.g., distributions and income received from pass-through investments), such amounts are reclassified within the capital accounts based on their nature for federal income tax purposes; temporary differences do not require reclassification.

The Fund may utilize earnings and profits distributed to shareholders on redemption of shares as part of the dividends paid deduction.

E. Allocation of Expenses

Expenses directly attributable to a Fund are charged to that Fund. Expenses not directly attributable to a Fund are allocated proportionally among all Funds within the Trust in relation to the net assets of each Fund or on another reasonable basis.

F. Securities Lending

For the purpose of achieving income, the Fund may lend portfolio securities, provided (1) the loan is secured continuously by collateral consisting of U.S. Government securities or cash or cash equivalents (cash, U.S. Government securities, negotiable certificates of deposit, bankers' acceptances or letters of credit) maintained on a daily mark-to-market basis in an amount at least equal to the current market value of the securities loaned, (2) the Fund may at any time call the loan and obtain the return of securities loaned, (3) the Fund will receive any interest or dividends received on the loaned securities, and (4) the aggregate value of the securities loaned will not at any time exceed one-third of the total assets of the lending Fund. Gain or loss in the value of securities loaned that may occur during the term of the loan will be for the account of the Fund.

Cash collateral received in connection with securities lending is held on behalf of the Fund in a demand deposit cash account at Citibank, N.A. (the "Securities Lending Agent"). Such investments are subject to risk of payment delays or default on the part of the issuer or counterparty or otherwise may not generate sufficient interest to support the costs associated with securities lending. The Fund could also experience delays in recovering its securities and possible loss of income or value if the borrower fails to return the borrowed securities, although the Fund is indemnified from this risk by contract with the Securities Lending Agent. The Fund pays the Securities Lending Agent a portion of the gross revenues received from securities lending activities. Such fees are netted against "Securities lending income" on the Statement of Operations. The Fund did not have securities on loan as of September 30, 2022.

(3) Investment Advisory and Other Contractual Services

A. Investment Advisory Fees

Tuttle Capital Management, LLC (the "Advisor"), serves as the Fund's investment advisor pursuant to an investment advisory agreement. Subject at all times to

the oversight and approval of the Board, the Advisor is responsible for the overall management of the Fund. The Fund pays the Advisor a management fee of 0.83% of its average daily net assets, calculated daily and paid monthly.

The Advisor has contractually agreed to reduce its fees and to reimburse expenses, at least through January 31, 2023 to ensure that Net Annual Fund Operating Expenses (exclusive of any (i) front-end or contingent deferred loads, (ii) brokerage fees and commissions, (iii) acquired fund fees and expenses, (iv) fees and expenses associated with instruments in other collective investment vehicles or derivative instruments (including for example options and swap fees and expenses); (v) borrowing costs (such as interest and dividend expense on securities sold short), (vi) taxes, (vii) other fees related to underlying investments, (such as option fees and expenses or swap fees and expenses); or (viii) extraordinary expenses such as litigation (which may include indemnification of Fund officers and trustees or contractual indemnification of Fund service providers (other than the Advisor)) will not exceed 0.95%. This expense limitation agreement may be terminated at any time, by the Board upon sixty days written notice to the Advisor. The expense limitation agreement will automatically terminate, if the Investment Advisory Agreement is terminated. Fee waivers and expense reimbursements are subject to possible recoupment from the Fund in future years on a rolling three-year basis (within the three years after the fees have been waived or reimbursed) if such recoupment can be achieved within the foregoing expense limits or the expense limits in place at the time of recoupment.

As of September 30, 2022, the Advisor may recoup amounts from the Fund as follows:

Fund	Waived/ Reimbursed FY 2021 Expires 9/30/2024	Waived/ Reimbursed FY 2022 Expires 9/30/2025	Total
The SPAC and New Issue ETF	\$154,955	\$182,529	\$337,484

B. Administration, Custodian, Transfer Agent and Accounting Fees

Citi Fund Services Ohio, Inc. ("Citi") serves as administrator and dividend disbursing agent for the Fund pursuant to a Services Agreement. Citibank, N.A. serves as the custodian and transfer agent of the Fund pursuant to a Global Custodial and Agency Services Agreement.

Collaborative Fund Services LLC ("CFS") provides the Fund with various management and legal administrative services. For these services, the Fund pays CFS an administrative fee that is computed daily and paid monthly, based on the aggregate daily net assets of the Fund and is subject to a minimum monthly fee.

C. Distribution and Shareholder Services Fees

ACA Foreside is the principal underwriter and distributor for the Fund's Shares. The Distributor is compensated by the Advisor in accordance with a Distribution Services Agreement between the Advisor and the Distributor.

D. Compliance Services

Beacon Compliance Consulting provides compliance services to the Trust and receives a monthly fee paid by the Fund for these services.

E. Treasurer Fees

The Treasurer of the Trust receives a fee that is calculated monthly using the net assets at month-end and is paid by the Fund on a quarterly basis. During the year ended September 30, 2022, the Fund paid a total of \$1,800 to the Treasurer.

F. General

Certain trustees and officers of the Trust are officers, directors and/or trustees of the above companies and, except for the Treasurer, receive no compensation from the Fund for their services.

(4) Investment Transactions

Purchases and sales of investments, excluding in-kind transactions and short-term investments, for the year ended September 30, 2022 were as follows:

	Purchases	Sales
The SPAC and New Issue ETF	\$24,632,571	\$34,368,379

Purchases and sales of in-kind transactions for the year ended September 30, 2022 were as follows:

	Purchases	Sales
The SPAC and New Issue ETF	\$1,715,146	\$44,373,834

There were no purchases or sales of U.S. government securities during the year ended September 30, 2022.

(5) Capital Share Transactions

Shares are issued and redeemed by the Fund only in aggregations of a specified number of shares or multiples thereof at NAV. Except when aggregated in Creation Units, shares of the Fund are not redeemable. Transactions in shares for the Fund are disclosed in detail on the Statements of Changes in Net Assets.

The consideration for the purchase of Creation Units of a Fund generally consists of the in-kind deposit of a designated basket of securities, which constitutes an optimized representation of the securities of that Fund's specified universe, and an amount of cash. Investors purchasing and redeeming Creation Units

may be charged a transaction fee to cover the transfer and other transactional costs it incurs to issue or redeem Creation Units. The transaction fees for the Fund are listed below:

	Fee for In-Kind and Cash Purchases	Maximum Additional Variable Charge for Cash Purchases⁽¹⁾
The SPAC and New Issue ETF	\$250	2.00%

(1) As a percentage of the amount invested.

From time to time, settlement of securities related to in-kind contributions or in-kind redemptions may be delayed. In such cases, securities related to in-kind transactions are reflected as a receivable or a payable on the Statement of Assets and Liabilities.

As of September 30, 2022, there were no unsettled in-kind capital transactions.

(6) Federal Income Taxes

It is the policy of the Fund to qualify as a regulated investment company by complying with the provisions available to certain investment companies, as defined in applicable sections of the Internal Revenue Code of 1986, as amended, and to make distributions of net investment income and net realized capital gains sufficient to relieve it from all, or substantially all, federal income taxes.

Management of the Fund has reviewed the tax positions taken in tax years that remain subject to examination by all major tax jurisdictions, including U.S. federal (i.e., all open tax years and the interim tax period since then). Management believes that there is no tax liability resulting from unrecognized tax benefits related to uncertain tax positions taken.

As of and during the year ended September 30, 2022, the Fund did not have a liability for any unrecognized tax benefits. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense on the Statement of Operations. During the year, the Fund did not incur any interest or penalties.

As of September 30, 2022, the tax cost of securities and the breakdown of unrealized appreciation (depreciation) for the Fund were as follows:

	Tax Cost of Securities	Unrealized Appreciation	Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
The SPAC and New Issue ETF	\$26,701,127	\$2,887,923	\$(2,696,475)	\$191,448

The difference between book-basis and tax-basis unrealized appreciation (depreciation) is primarily attributable to wash sale activity and investments in passive foreign investment companies.

The tax character of distributions paid during the fiscal year ended September 30, 2022 were as follows:

	Distributions paid from			Total Distributions Paid
	Ordinary Income	Net Long Term Capital Gains	Total Taxable Distributions	
The SPAC and New Issue ETF	\$813,499	\$—	\$813,499	\$813,499

There were no distributions paid during the fiscal period ended September 30, 2021.

As of September 30, 2022, the components of distributable earnings (deficit) on a tax basis were as follows:

	Undistributed Ordinary Income	Undistributed Long Term Capital Gains	Distributable Earnings	Accumulated Capital and Other Losses	Unrealized Appreciation (Depreciation)	Total Distributable Earnings (Deficit)
The SPAC and New Issue ETF	\$—	\$—	\$—	\$(3,984,162)	\$191,448	\$(3,792,714)

As of the fiscal year ended September 30, 2022, the Fund has net capital loss carryforwards ("CLCFs") not subject to expiration as summarized in the table below.

	Short Term Amount	Long Term Amount	Total
The SPAC and New Issue ETF	\$2,616,214	\$1,089,073	\$3,705,287

Under current law, capital losses and specified ordinary losses realized after October 31 and non-specified ordinary losses incurred after December 31 (ordinary losses collectively known as "late year ordinary loss") may be deferred and treated as occurring on the first business day of the following fiscal year. As of the fiscal year ended September 30, 2022, the Fund's deferred losses are as follows:

	Late Year Ordinary Loss Deferred	Total
The SPAC and New Issue ETF	\$278,875	\$278,875

Permanent Tax Differences:

As of September 30, 2022, the following reclassifications were made on the Statement of Assets and Liabilities, relating primarily to redemptions in-kind and net operating losses:

	Total Distributable Earnings (Deficit)	Paid in Capital
The SPAC and New Issue ETF	\$2,459,778	\$(2,459,778)

(7) Investment Risks**ETF Risk**

The NAV of a Fund can fluctuate up or down, and you could lose money investing in the Fund if the prices of the securities owned by the Fund decline. In addition, the Fund may be subject to the following risks: (1) the market price of the Fund's shares may trade above or below its NAV; (2) an active trading market for the Fund's shares may not develop or be maintained; or (3) trading of the Fund's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are delisted from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally.

Market and Geopolitical Risk

The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Securities in the Fund may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, climate-change and climate-related events, pandemics, epidemics, terrorism, international conflicts, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years, such as terrorist attacks around the world, natural disasters, social and political discord or debt crises and downgrades, among others, may result in market volatility and may have long term effects on both the U.S. and global financial markets. It is difficult to predict when similar events affecting the U.S. or global financial markets may occur, the effects that such events may have and the duration of those effects. Any such event(s) could have a significant adverse impact on the value and risk profile of the Fund. The coronavirus (COVID-19) global pandemic and the aggressive responses taken by many governments, including closing borders, restricting international and domestic travel, and the imposition of prolonged quarantines or similar restrictions, as well as the forced or voluntary closure of, or operational changes to, many retail and other businesses, had negative impacts, and in many cases severe negative impacts, on markets worldwide. It is not known how long such impacts, or any future impacts of other significant events described above, will or would last, but there could be a prolonged

period of global economic slowdown, which may impact your investment. Therefore, the Fund could lose money over short periods due to short-term market movements and over longer periods during more prolonged market downturns. During a general market downturn, multiple asset classes may be negatively affected. Changes in market conditions and interest rates can have the same impact on all types of securities and instruments. In times of severe market disruptions, you could lose your entire investment.

SPAC Risk

The Fund invests in SPACs and companies that have completed an IPO. SPACs are companies that may be unseasoned and lack a trading or operational history, a track record of reporting to investors, and widely available research coverage. The Fund may purchase SPACs through an IPO. IPOs are thus often subject to extreme price volatility and speculative trading. These stocks may have above-average price appreciation in connection with the IPO. In addition, IPOs may share similar illiquidity risks of private equity and venture capital. The free float shares held by the public in an IPO are typically a small percentage of the market capitalization. The ownership of many IPOs often includes large holdings by venture capital and private equity investors who seek to sell their shares in the public market in the months following an IPO when shares restricted by lock-up are released, causing greater volatility and possible downward pressure during the time that locked-up shares are released. Public stockholders of SPACs may not be afforded a meaningful opportunity to vote on a proposed initial business combination because certain stockholders, including stockholders affiliated with the management of the SPAC, may have sufficient voting power, and a financial incentive, to approve such a transaction without support from public stockholders. As a result, a SPAC may complete a business combination even though a majority of its public stockholders do not support such a combination.

(8) Subsequent Events

Management of the Fund has evaluated the need for disclosures and/or adjustments resulting from subsequent events through the date these financial statements were issued. Based upon this evaluation, no additional disclosures or adjustments were required to the financial statements as of September 30, 2022.

Report of Independent Registered Public Accounting Firm

To the Shareholders of The SPAC and New Issue ETF and
Board of Trustees of Collaborative Investment Series Trust

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments, of The SPAC and New Issue ETF (the “Fund”), a series of Collaborative Investment Series Trust, as of September 30, 2022, the related statements of operations and cash flows for the year then ended, the statements of changes in net assets and financial highlights for each of the two periods in the period then ended, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of September 30, 2022, the results of its operations and cash flows for the year then ended, the changes in net assets and the financial highlights for each of the two periods in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of September 30, 2022, by correspondence with the custodian and brokers or by other auditing procedures as appropriate in the circumstances. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as auditor of one or more investment companies advised by Tuttle Capital Management, LLC since 2020.

PORTFOLIO HOLDINGS

The Fund files a complete schedule of investments with the Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year on Form N-PORT. The Form N-PORT filing must be made within 60 days of the end of the quarter. These filings are available on the SEC's web site at <http://www.sec.gov>. You may also obtain copies by calling the Fund at 1-866-904-0406, free of charge.

PREMIUM/DISCOUNT INFORMATION

The Fund's website at <http://www.spcxetf.com> shows the previous day's closing NAV and closing market price for the Fund's ETF Shares. The website also discloses, in the Premium/Discount section, how frequently the Fund's ETF Shares traded at a premium or discount to NAV (based on closing NAVs and market prices) and the magnitudes of such premiums and discounts.

PROXY VOTING

The Fund's proxy voting policies, procedures and voting records relating to common stock in the Fund's investment portfolio are available without charge, upon request, by calling the Fund's toll-free telephone number 1-866-904-0406. The Fund will send this information within three business days of receipt of the request, by first class mail or other means designed to ensure prompt delivery.

The Fund's proxy information is also available on the SEC's website at <http://www.sec.gov>. Information regarding how the Fund voted proxies relating to portfolio securities for the most recent 12-month period ended June 30 is available without charge, upon request by calling 1-866-904-0406 or referring to the SEC's web site at <http://www.sec.gov>.

LIQUIDITY RISK MANAGEMENT PROGRAM

The Fund has adopted and implemented a written liquidity risk management program as required by Rule 22e-4 (the "Liquidity Rule") under the 1940 Act. The program is reasonably designed to assess and manage the Fund's liquidity risk, taking into consideration, among other factors, the Fund's investment strategy and the liquidity of its portfolio investments during normal and reasonably foreseeable stressed conditions; its short and long-term cash flow projections; and its cash holdings and access to other funding sources.

The Trust's Liquidity Risk Management Program Committee (the "Committee") reviewed the Fund's investments and determined that the Fund held adequate levels of cash and highly liquid investments to meet shareholder redemption activities in accordance with applicable requirements. Accordingly, the Committee concluded that (i) the Fund's liquidity risk management program is reasonably designed to prevent violations of the Liquidity Rule and (ii) the Fund's liquidity risk management program has been effectively implemented.
